

# CERTIFICATION Informs

An Urgent Bulletin from CSA Group

Ref No: I17-095

Wiring Devices No. 117

Date: September 22, 2017

Existing Certification not affected

Apply any time to have your products evaluated

Announcing: Publication of CSA Standard C22.2 No. 0.5-16 Threaded Conduit Entries

Class No: 4658 01, SWITCHES - Miscellaneous - For Hazardous Locations

To purchase the Standard, visit us at [www.shop.csa.ca](http://www.shop.csa.ca)

## Who is affected?

Manufacturers of threaded conduit entries.

## What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation\*. If testing is needed, we will inform you of the samples required.

\*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

## Approvals:

This informs announces the third edition of CSA Standard C22.2 No.0.5 for threaded conduit entries. This edition supersedes previous publications in 1982 and 1979. This standard is a parallel applicable part of the Canadian Electrical Code Part II standards. It is not associated with one particular product standard but is referenced as required. Manufactures currently utilizing this standard for their threaded conduit entries are not required to reapply however may choose to update their current certifications using metric threaded conduit entries.

## Major Revisions:

At the request of industry this edition includes metric threads. Metric sizes are referenced in various clauses which reference ANSI/ASME B1.16M for sizing. The end use product standards and the CE code Part I (sections 18 & J18) define the details required for using metric threads.

For questions specific to your file or products contact your CSA Group technical staff associate.
