Manufacturers of cord reels and multi-outlet assemblies.

What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation*. If testing is needed, we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file

number or master contract number (if assigned), and any other relevant documentation.

Introduction:

This informs announces the publication of CSA Standard C22.2 No. 308-18. This is the second edition of CSA C22.2 No. 308 which supersedes the first edition C22.2 No. 308-14. This Informs also announces CSA Group's intention to withdraw its certification services to TIL CSA A-32.

Major Revisions:

These major revisions include the requirements previously found in TIL CSA A-32 for outdoor Multiple Receptacle Extension Boxes and new requirements for commercial and industrial cord reels.

Currently certified cord reels and multi-outlet assemblies are not required to resubmit for further testing however, manufactures wishing approval to the new requirements for industrial and commercial cord reels may apply at any time.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://www.csagroup.org/services/testing-and-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
